Solutions

Delivering ... nonprofit loss control.

Helping our nonprofit clients goes beyond selling a policy. We take the time to understand your organization's mission and operational needs. We'll help you manage your risks so that you can serve our community with peace of mind.

Unique Solutions for Your Organization

Your organization provides important and specific services. SIG will match your activities to the right risk management and loss control solutions, ensuring proper protection while providing tools to reduce the likelihood of a claim. But in the event of a claim, we'll manage it from start to finish, free of charge.

SIG Stays with You

Your risks will change over time. SIG works to understand your programs and offers timely advice to help you reduce your risks. We'll make sure your insurance continues to protect you. In addition, SIG works closely with many granting and lending institutions, with a full-time employee dedicated to issuing insurance certificates. We make this an easy process.

Our Personal Commitment

Our firm is honored to serve the needs of the nonprofit community, and we hold ourselves accountable to each of our clients. We would happily compare our day-to-day service with any other broker. Along with being accessible to our clients, many of us serve on boards and actively donate our time, as well as financial support, to help nonprofit organizations in our community.

When you choose Sprague Israel Giles, you are choosing a company who knows nonprofits, supports nonprofits, and understands nonprofit insurance better than anyone.
