

Cover What You Do

Working closely with practicing naturopathic doctors, we created **Natural Insurance**[®], a medical liability policy that actually meets the insurance needs of your successful practice.

Trigger point injections? Surgery? Non-FDA-approved medications?
More difficult to insure modalities like Prolotherapy or Chelation therapy?

All covered. Really.

And when you pair your professional insurance with an office policy written with a quality company like **Liberty Northwest**[®], you'll have an unbeatable insurance combination that will give you the protection you need for your robust clinical practice.

Contact us for more information.

We promise fast, expert service—and quotes within a week.
